

CLINICAL CYCLE REPORT

You should attach your contract, lesson plan and your response to the data to this report.

Teacher: *Your name*

Observers: *List all names*

Date and Time: *State the day when the lesson was taught and the time it began*

Location: *State the place where the lesson was taught... Ferrum Elementary, 3rd grade classroom*

Lesson: *Social studies*

Questions: *Questions asked in the contract*

Placement of Observers: *Statement about where observers were placed during the data collection*

Data Collection Assignments: *Statement identifying who was assigned to specific data collection tasks.*

Data Analysis: *State the findings reported to you by the data collectors and make statements about what that data means.*

Data Usage for Reflection and Planning: *This is your reflection about the facts based on the data collected and connected to your cycle purpose statement. Conclusions must be represented in the data that you had team members to collect. You will describe changes you plan to implement in our teaching as a result of this feedback. You will then propose whether you intend to follow up on these cycle questions or take your next cycle in a new direction. Some indication of why you will do either should be included.*
