

INCLEMENT WEATHER POLICY

The Ferrum College Inclement Weather Policy is designed to give faculty, staff, and students as much flexibility as possible during adverse weather conditions. The College will not be considered closed as long as the residential student population is on campus.

In the event of inclement weather, faculty will transition to a **Remote Course Delivery Plan**:

Faculty may use digital means to hold class, either synchronously through teleconferencing, chatting or discussion boards; or asynchronously through the Brightspace course management system, web pages, or some other means.

Online classes are not canceled in inclement weather events. Only severe power outages will impact online classes. If a student is experiencing power outages at home, they should contact their instructor as soon as the power has been restored.
