**Instructions**

Please note that if an approved education program had less than ten completers and exiters reported in the prior biennial reporting period, then those completers and exiters are displayed in the table below under the "Rollover Only from Prior Biennial Reporting Period" column and will automatically be summed together with the current biennial reporting period completers and exiters for that education program.

For each approved education program listed below, complete the following information as it pertains to the Current Biennial Reporting Period, i.e., September 1, 2015, through August 31, 2017:

Step 1 Enter the number of program completers for the current biennial reporting period.

Step 2 Enter the number of program exiters for the current biennial reporting period.

**Note, the spreadsheet will automatically calculate the "Total Completers and Exiters" for each approved education program based on the sum of the "Rollover" completers and exiters and of your current period entries in Step 1 and Step 2.**

Step 3 If there are ten or more "Total Completers and Exiters", then proceed to enter in each of the designated columns the number (i.e., zero or higher) of candidates who passed (P), who did not pass (NP), who did not take (NT), and who were not required to take (NR) the applicable licensure assessments for that approved program.

Step 4 If there are less than ten "Total Completers and Exiters" for an approved education program, then do **NOT** enter candidate results for the respective licensure assessments for that approved education program. These candidates will be rolled over, i.e., added into the pool used for the next biennial report.

**Note, the "Pass Rate (%)" will automatically be calculated by the spreadsheet for each respective licensure assessment for each approved education program.**
